

Pulsar® Precision 30 High-Tech Commercial Pool Disinfection with Powerful Performance

The **Pulsar®** Precision 30 feeder is a high capacity erosion (HCE) feeder that is compact and lightweight with a modular design.

The feeder uses **Pulsar®** Plus Briquettes that produces a fresh concentrated liquid chlorine solution for clean and sanitized water. This innovative feeder system is easy to maintain and service with a flexible design that allows for easy integration for small to medium size commercial pools.

Switch to the **Pulsar®** Precision 30 Feeder System, delivering clear and sparkling water time and time again!

Powerful Feeder Performance

-  No booster pump required for feeder operation
-  Provides consistent chlorine delivery
-  Feeder designed to minimize maintenance requirements
-  Injection molded components hold up to the strongest elements
-  Feeder design allows for easy access to internal components
-  Features high capacity erosion technology with the benefits of a venturi

Briquette Efficiencies

-  Won't overstabilize pool
-  More concentrated than liquid bleach
-  Dry, easy to handle formulation
-  Will not cause reduction of ORP
-  Highly concentrated to reduce shipping and handling costs
-  Longer shelf life when compared to liquid bleach
